SKILLS

- Linux
- Zabbix
- Apache
- Bash
- Networking
- PHP
- Ansible
- DNS
- Security
- Redis
- Splunk
- MySQL

BACKGROUND

- I enjoy learning about new technology and furthering my knowledge by maintaining personal Linux servers. I have fun installing, configuring, and managing various software.
- My personal projects primarily depend upon PHP and MySQL. However, I do not consider myself a developer - I prefer the command line and systems administration.

EXPERIENCE

Comcast Corporation — Philadelphia, PA
Linux Engineer — April 2016 - November 2017
- Performed configuration management using Ansible on servers running one of the top five largest Splunk installations in the world
- Set up and maintained a Zabbix installation across 30 proxies which monitored over 800 hosts

Sidecar — Philadelphia, PA
Linux Systems Administrator — November 2013 - April 2016
- Primary duties included response to any infrastructure issues as well as decision-making for all server modifications
- Responsible for maintaining multiple separate database environments that each included replication configurations between co-located hardware and Amazon Web Services (AWS)

URBN, Inc — Philadelphia, PA
Linux Systems Administrator — September 2012 - November 2013
- Worked with a team to deploy, configure, manage, and maintain servers responsible for hosting UrbanOutfitters.com as well as Anthropologie.com

Linode, LLC — Galloway, NJ
Linux Technical Support — July 2010 - August 2012
- Provided quick and helpful technical support to a significant number of customers via telephone, e-mail, and support tickets which involved troubleshooting a wide variety of issues

CERTIFICATIONS

- CompTIA Security+, Network+, and Linux+
- Hurricane Electric IPv6 Sage
- Cisco Certified Entry Networking Technician (CCENT)

EDUCATION

ECPI University — Newport News, VA
Networking & Security Management (A.A.S.) — September 2008 - May 2010
