(757) 742-3742

SKILLS

- Linux
- Zabbix
- Apache

- Bash
- Networking
- PHP

- Ansible
- DNS
- Security

- Redis
- Splunk
- MySQL

BACKGROUND

- I am seeking a role that allows me to enhance my technical knowledge and continuously learn while also making use of over five years of existing Linux operations experience that I have.
- While my personal projects primarily depend upon PHP and MySQL, I do not necessarily consider myself a developer. I prefer working on the command-line and systems administration. I feel that I am excellent at troubleshooting, debugging, and working through production issues.
- I prefer a casual environment and a short commute, within Philadelphia. Most importantly, I truly value a fun and positive company culture.

EXPERIENCE

Comcast Corporation   Philadelphia, PA
Linux Engineer   April 2016 - November 2017

- Performed configuration management using Ansible on nearly 1,000 physical CentOS servers which ran one of the top five largest Splunk installations in the world
- Set up and maintained a Zabbix cluster across 30 proxies which monitored over 800 hosts

Sidecar Interactive   Philadelphia, PA
Linux Systems Administrator   November 2013 - April 2016

- Primary duties included response to any infrastructure issues as well as decision-making for all server modifications
- Responsible for maintaining multiple separate database environments that each included replication configurations between co-located hardware running Ubuntu and Amazon Web Services (AWS)

URBN, Inc   Philadelphia, PA
Linux Systems Administrator   September 2012 - November 2013

- Worked with a team to deploy, configure, manage, and maintain servers responsible for hosting UrbanOutfitters.com as well as Anthropologie.com

Linode, LLC   Galloway, NJ
Linux Technical Support   July 2010 - August 2012

- Provided quick and helpful technical support to a significant number of customers via telephone, e-mail, and support tickets which involved troubleshooting a wide variety of issues

CERTIFICATIONS

- CompTIA Security+, Network+, and Linux+
- Hurricane Electric IPv6 Sage
- Cisco Certified Entry Networking Technician (CCENT)

EDUCATION

ECPI University   Newport News, VA
Networking & Security Management (A.A.S.)   September 2008 - May 2010
